MEMORANDUM FOR: Deputy Director for Intelligence

VIA: Director, Arms Control Intelligence Staff

FROM: [REDACTED] 25X1

Office of Congressional Affairs

SUBJECT: Congressional Request for Staff Briefings on  
Arms Control Issues and Related Intelligence  
Capabilities

1. Attached is a briefing plan drawn up by the SSCI and SASC staffs to cover arms control monitoring issues. The staffs would like to launch this briefing schedule in September once the Congress is back in session, with one briefing per week. They plan for an initial session with State to cover verification problems during the week of 15 September. The overall purpose is to educate staff members of the two Committees on the leading issues so that they will be prepared to assist Members when an arms control treaty requires Congressional attention.

2. ACIS discussed the proposed schedule with George Tenet of the SSCI staff on 7 August. In addition to topics on the briefing plan, Tenet made the following points which concern the Agency:

- The staff hopes that ACIS will be able to take the lead in organizing the briefings. [REDACTED] 25X1  
[REDACTED] discussed this possibility. 25X1
- The staffs would like State/INR and DIA to participate "at the table" with the Agency briefers. The proposed schedule will be sent to them shortly.
- The staffs have not decided where ACDA should be introduced into the schedule.
